

# TULIO SALVATIERRA

---

## WORK HISTORY

---

**Full Stack Developer Jr., 09/2022 - Current**  
**Brian Motero's Learner To Professional, Remote**

- Key Contributions:
- Developed e-commerce sites using SCRUM, focusing on React, React Router Dom, React Query, and Material-UI.
- Implemented secure user authentication and permissions, enhancing user experience and security.
- Created intuitive shopping cart features, improving online shopping process.
- Integrated RESTful APIs and utilized Firebase for data storage and management.
- Used tools like VSCode, Slack, Trello, and GitHub for team collaboration and version control.
- Designed responsive front-end using ES6 JavaScript, HTML, and CSS.
- Adopted CI/CD practices with GitHub Actions.
- Back-End Contributions:
- Utilized Express for server-side development.
- Employed body-parser, cookie-session, cors, and csv-parser for enhanced functionality.
- Managed environment variables with dotenv and streamlined development with nodemon.
- Implemented Passport.js for OAuth authentication.
- Used PostgreSQL and Sequelize for database management.
- Ensured robust and scalable back-end infrastructures, catering to diverse application needs.

## SUMMARY

---

I am a Full Stack Developer Jr. at Brian Motero's Learner to professional, where we create responsive and engaging web applications using HTML, CSS, JavaScript, and React. We collaborate with cross-functional teams using SCRUM, VSCode, Slack, Trello, and GitHub, and integrate RESTful APIs and Firebase for data storage and management.
